NON-EMERGENCY PATIENT TRANSPORT SERVICE - **PATIENT CHARTER**

South Central Ambulance Service NHS Foundation Trust (SCAS) understands that attending hospital can be a challenging time in a patient's life. Our Patient Charter explains your rights and responsibilities when you use our Non-Emergency Patient Transport Services (NEPTS). We work in partnership with hospitals and other healthcare organisations in order to improve our service, and we hope that you will find the information contained within this charter helpful, and that it leads to a better experience for you.

The NEPTS service is available for those patients who meet the current eligibility criteria set by your local Clinical Commissioning Group (CCG) and based on Department of Health guidelines.

When you request transport, you will be asked a series of questions that will help us to decide how we can best support you in getting to your appointment. If you are not eligible to use NEPTS we will assist you by giving you useful information from our directory of alternative transport options. If you are eligible to travel using our service, you can expect the following, outlined in this booklet.
