1 **INTRODUCTION**

- 1.1 From 3rd October 2016 parking at The Talisman Business Centre, including Northern House, will be controlled by the landlords Parking Patrol Company in line with the landlords parking rules. The main impact of the rules are that;

Cars may only be parked within a marked parking bay and must display a Landlords Parking Permit (LLPP).

Any vehicle parked outside of a marked bay, on yellow cross hatching or on double yellow lines will be liable to receive a parking ticket, even if it displays a LLPP.

The practice of double parking between lines of cars in unmarked spaces and of parking on yellow hatching between parking bays will no longer be tolerated and cars parked in such a way will be liable to receive a parking ticket.

Essentially the landlord is not changing the previous rules or the terms and conditions regarding parking in any of the leases. Rather, due to the tenants, including the Trust persistently, abusing them, they will now be strictly enforced by the landlord through a limited issue of LLPPs to each tenant. This will be commensurate with the number of marked parking bays allocated to each tenant/building.

The purpose of this policy is to ensure that SCAS and SCAS Staff adhere to the parking rules on site and that the use of the limited amount of parking available to SCAS is prioritised correctly amongst qualifying staff who will optimise its use.

The Landlord is likely to issue a number of permits which will exceed the number of available places. These will be issued to those staff that fall within categories 1 to 6 as outlined in section 4.2 from information completed in the questionnaire.

The issue of a permit does not guarantee that a space will be available. In these instances all permit holders will revert to their alternative parking option(s).

2 **EQUALITY STATEMENT**

The Trust is committed to promoting positive measures that eliminate all forms of unlawful or unfair discrimination on the grounds of age, marriage and civil partnership, disability, race, gender, religion/belief, sexual orientation, gender reassignment and pregnancy/maternity or any other basis not justified by law or relevant to the requirements of the post.

By committing to a policy encouraging equality of opportunity and diversity, the Trust values differences between members of the community and within its existing workforce, and actively seeks to benefit from their differing skills, knowledge, and experiences in order to provide an exemplary healthcare service. The Trust is committed to promoting equality and diversity best practice both within the workforce and in any other area where it has influence.

The Trust will therefore take every possible step to ensure that this procedure is applied fairly to all employees regardless of age, marriage and civil partnership, disability, race, gender, religion/belief, sexual orientation, gender reassignment and pregnancy/maternity or any other basis not justified by law, length of service, whether full or part-time or employed under a permanent or a fixed-term contract or any other irrelevant factor.

Where there are barriers to understanding e.g. an employee has difficulty in reading or writing or where English is not their first language, additional support will be put in place wherever necessary to ensure that the process to be followed, is understood and that the employee is not disadvantaged at any stage in the procedure. Further information on the support available can be sought from the Human Resource Department.
